PRESENTS

OfficeServ™ 7100 — Go Green Event

**Say Goodbye to Long Commutes...
Hello to Remote Possibilities!**

OfficeServ™ 7100

Simplicity and Sophistication

Now, small businesses can plug into the power of convergence with the easy-to-install OfficeServ 7100. A single, compact, platform links wireless and wire line connections, voice and data—providing connectivity and substantial cost savings from all-in-one technology. Traditional voice, utilizing digital or VoIP, is supported with a full set of features and sophisticated applications.

**Move over Casual Friday —
Samsung's Remote IP Phone is the
communications technology you and
your employees have been waiting for!**

Telecommuting is good for your workplace, good for the planet, and great for office morale. With the Samsung Remote IP Phone, your employees can make the most of their workday by avoiding long, stressful commutes. And, it allows remote employees to connect directly to the OfficeServ 7100, giving them all their in-office communication functionality at home. Calls going through the OfficeServ 7100 route directly to their remote IP phone. Best of all, your home and remote workers can enjoy all the features of their desk phone, at a price even small businesses can afford.

Whether it's from their study, their guest bedroom, or their kitchen nook, Samsung's Remote IP Phone lets your employees work from any location where there is an Internet connection.

Samsung's Remote IP Phone can help you:

- Boost productivity and worker retention
- Avoid maddening rush-hour traffic while reducing harmful emissions
- Stagger work schedules to accommodate individual needs
- Lower your monthly phone and electricity bills
- Trim travel expenses
